<p>In accordance with Executive Order GA-46 issued by Governor Greg Abbott on August 8, 2024, hospital providers must ask each patient during the hospital intake process whether the patient is (1) a citizen or an alien lawfully present in the United States, or (2) an alien not lawfully present in the United States. Hospital providers must report to HHSC quarterly the number of inpatient discharges of and emergency visits by all patients and patients who are (1) a citizen or an alien lawfully present in the United States, and (2) an alien not lawfully present in the United States. Hospital providers must also report to HHSC quarterly the costs of care for patients who are not lawfully present in the United States. Hospitals began collecting the information on November 1, 2024, and are expected to begin reporting to HHSC on March 1, 2025. When collecting information about a patient's immigration status, hospital providers must provide notification that, as required by federal law, the response will not affect patient care.</p>
