## Random Moment Time Study

### RMTS Training & Completion Instructions

You have been selected to participate in the Random Moment Time Study on behalf of your organization. You are required to complete the following Time Study questionnaire, which will ask you several questions that you will answer for your sampled date and time. The specific information that you provide on the Time Study is not shared with your organization, however it is reviewed by Fairbanks personnel and coded for Medicaid reimbursement purposes. As a result, it is important that you complete the Time Study accurately.

The following provides guidance on the accurate completion of the Time Study:

1. Please keep in mind that you are responding for one precise minute in time.
2. Choices are provided for your convenience. If you do not see a response that applies, click "other" and provide details.
3. If you use acronyms in the description of your activity, please provide a definition of the acronym.
4. If you were with a child, Do not provide client-specific names, instead your response can state that you were working with a child or group of children.
5. Some responses do not provide enough description. Examples of unacceptable responses:
  - "I was doing my job."
  - "I was completing my job responsibilities."
  - "I was completing this time study form."
6. If insufficient information is provided, you will receive a follow-up email or phone call requesting more information.
7. If you are travelling at the selected moment, please associate the time spent travelling with the activity you will be performing when you are done travelling. For example, travelling to a direct service appointment, the travel time is reported as direct service.
8. The term **caregiver** includes all individuals who are responsible for the child's safety and well being throughout the day. Examples: Parent, foster parent, extended family, daycare provider.
9. Time spent **travelling** to or from the activity is considered a part of that activity. For example, travel to a child's home to provide case management is considered as time spent providing case management.
10. Time spent **preparing** for the activity and **documenting** the activity are to be considered a part of that activity. For example, collecting the necessary forms in preparation of an evaluation is considered time spent performing the evaluation.
