Background

HHSC is responsible for the reimbursement determination functions for the Texas Medicaid Program. Proposed rates are calculated utilizing established methodologies that conform to the Social Security Act and related federal regulations, the federally approved Texas Medicaid State Plan, all applicable state statutes and rules, and other requirements. These reviews result in rates that are increased, decreased, or remain the same and are conducted to ensure that rates continue to be based on established rate methodologies.

Methodology

The specific administrative rules that govern the establishment of the fees in this proposal include these rules in 1 TAC §355.8620, which addresses the reimbursement methodology for services provided in Indian Health Service and Tribal Facilities.

Proposed Rate Adjustments

Indian Health reimbursement rates are set annually by the Department of Health and Human Services and were published in the Federal Register on January 18, 2017 (Vol. 82, No. 11, Page 5585).

Proposed payment rates are listed in the attachment outlined below:
