Background

HHSC is required by Senate Bill 1 (S.B. 1), Article II, Rider 8(f), 87th Legislature, Regular Session 2021 to allocate certain funds appropriated to provide an increase to outpatient reimbursement rates for rural hospitals. HHSC proposes an increase to outpatient services reimbursement by removing the cap that was established September 1, 2013 and applying a percentage increase to the cost to charge ratios for rural hospitals. This proposal will also eliminate the cost settlement of payments to maintain the level of payment directed by the rider. Rider 8 states that reimbursement for outpatient emergency department services which do not qualify as emergency visits may not exceed 65 percent of cost. Therefore, HHSC proposes a decrease in the allowable charges to 55 percent for these services to accommodate the increase in cost to charge ratios and retain the payments below 65 percent of cost. (The proposed increase does not include services that are reimbursed by a flat fee, (i.e. clinical diagnostic laboratory, diagnostic radiology and hospital ambulatory surgical centers).

Methodology

The specific administrative rule that govern the establishment of the rates in this proposal include this rule in the TAC:

- §355.8061, which addresses outpatient hospital reimbursement;

Proposed Rate Adjustments

A summary of the methodologies used to determine the proposed fee-for-service Medicaid rates for rural hospitals is listed below:

- Increase outpatient services reimbursement by removing the cap and applying a percent increase to the cost to charge ratio in effect on August 31, 2021.
- Decrease the allowable charges to 55 percent for outpatient emergency department services which do not qualify as emergency visits
- Eliminate the cost settlement of over payments

An informational listing of the proposed payment rate adjustments which are subject to change based on cost reports processed prior to September 1, 2021, are listed in the attachment outlined below:
