Re: STAR+PLUS Rate Amendment UMCC 529-12-0002 V2.13, STAR+PLUS EXP 529-10-0020 V1.18 and STAR+PLUS MRSA 529-13-0042 V1.4

Dear Ms. Butler:

This letter amends the report titled State of Texas Medicaid Managed Care STAR+PLUS Program Rate Setting State Fiscal Year 2015 and dated May 30, 2014. The amended FY2015 capitation rates were developed using identical methods and assumptions as the rates described in that report. The amended rates are assumed to be payable for the period March 1, 2015 through August 31, 2015 and are split into two distinct sub periods for capitation payment purposes (i) March 1, 2015 through May 31, 2015 and (ii) June 1, 2015 through August 31, 2015. The reasons for these revisions are included below:

## 1. Electronic Visit Verification (EVV)

The capitation rates effective September 1, 2014 assume that EVV would be operational on or before September 1, 2014. Once implemented it is anticipated that the use of EVV will reduce unnecessary personal attendant services utilization and reduce long term care expenditures. Implementation delays due to contract award, provider education and managed care organization implementation have resulted in EVV not yet being in place. Because of these delays the assumed level of savings associated with the EVV initiative have been reduced from our original estimates. Attachment 7 Exhibit C (revised) presents the revised impact associated with the EVV implementation during the period September 1, 2014 through August 31, 2015. The revised EVV adjustment factors do not impact the MRSA expansion area because these areas had no adjustment applied to the rates effective September 1, 2014. EVV was implemented in these areas prior to the FY2013 base period used in developing the capitation rates.

## **2. Community First Choice (CFC) Initiative**

Effective June 1, 2015 Texas will provide CFC services to individuals who:

- have a physical or intellectual disability,
- meet categorical coverage requirements for Medicaid or meet financial eligibility for home and community based services, and
- meet an institutional level of care.

The CFC services will include:

- Help with activities of daily living and health-related tasks through hands-on assistance, supervision or cueing.
- Services to help the individual learn how to care for themselves.
- Backup systems or ways to ensure continuity of services and supports.
- Training on how to select, manage and dismiss attendants.

Many of the individuals who will be eligible for CFC are currently covered under the STAR+PLUS program. Many of these covered individuals currently receive long term services and supports (LTSS) through the HCBS risk group which by definition meets the institutional level of care requirement. It is estimated that approximately 7,500 individuals who were not eligible for and did not receive LTSS during our rate development base period (FY2013) will become eligible for LTSS after the implementation of CFC. These individuals are currently on an IDD interest list and do not receive LTSS through STAR+PLUS. Due to the lack of LTSS data for this population it is assumed that the utilization of CFC services will be similar to the current IDD population who is eligible to receive LTSS from the Department of Aging and Disability Services (DADS). The IDD population receives an average 109 hours of attendant care per month. Applying this assumed level of utilization at the CFC attendant care reimbursement rate of \$12.62 to our base period data we have developed the adjustment factors included in Attachment 7 Exhibit D. In addition, this adjustment includes the increased level of reimbursement for those clients currently eligible for and receiving CFC eligible services.

The MRSA service areas were new to the STAR+PLUS program effective September 1, 2014. Since no managed care data was available for long term care services during the FY2013 base period, the average CFC adjustment across all service areas was applied to the MRSA service areas.

## **3. Network Access Improvement Program (NAIP)**

Effective March 1, 2015 several managed care organizations will be implementing programs aimed at improving network access for Medicaid members. The NAIP is designed to further the state's goal of increasing the availability and effectiveness of primary care for Medicaid beneficiaries by incentivizing various institutions to provide quality, well-coordinated, and continuous care. The NAIP is intended to achieve the following objectives regarding health-related institutions (HRI):

- Improve the availability of and Medicaid access to primary care physicians. This program may also target specialist physicians willing to provide a medical home to managed care members with special needs and conditions, and advanced practice

registered nurses (APRNs) and physician assistants (PAs) practicing under the supervision of an HRI staff provider.

- Enhance the coordination and continuity of services and quality of care of Medicaid managed care members who receive primary care services through those physician practices.
- Increase access to primary care in these settings, underscoring the importance of primary care residency programs and influencing future physician participation.
- Promote provider education on Medicaid program requirements and the specialized needs of Medicaid recipients.
- Measure progress through increased primary care access and physician compliance with selected quality objectives, to be determined later.

Similarly, the NAIP is intended to achieve the following objectives relating to public hospitals:

- Improve the availability, quality and coordination of primary and specialty care services provided by public hospitals;
- Promote provider education on Medicaid program requirements and the specialized needs of Medicaid recipients;
- Measure progress through increased care access and physician compliance with quality objectives.

The above-stated objectives will lead to better health outcomes for Medicaid beneficiaries and decreased overall healthcare costs for the Medicaid program.

The NAIPs were developed independently by various managed care organizations and providers. The NAIPs outline the services to be provided by the providers, measurements to evaluate their effectiveness and the cost to be paid by the managed care organizations. The NAIP amounts impact the following risk groups within STAR+PLUS:

- Medicaid Only OCC
- Medicaid Only HCBS
- IDD <21
- IDD >21

Exhibit B presents the NAIP add on amounts to be included in the capitation rates effective March 1, 2015.

#### **4. Prescription Drug**

HHSC implemented a new cost containment initiative in the STAR+PLUS prescription drug program effective December 1, 2014. The Vendor Drug Program (VDP) instituted a new reimbursement arrangement for 340B drugs in the fee-for-service program. MCOs were required to develop and implement reimbursement reduction plans for 340B drugs designed to achieve comparable savings.

Exhibit C presents the derivation of the rating adjustment factors for the 340B reimbursement change. Based on each MCO's 340B reimbursement plan, we re-priced their pharmacy claims during the period March 1, 2014 through August 31, 2014. We then compared the estimated cost impact of the reimbursement change to the original claims cost to determine the adjustment factor. The calculation of the adjustment factor takes into account that the reimbursement

change is effective for only nine months of FY2015. The average adjustment factor for each service delivery area was applied to the IDD risk groups.

Due to timing issues HHSC will not be able to implement this rate change until March 1, 2015. The capitation rates payable for the six-month period March 1, 2015 through August 31, 2015 have been adjusted to recognize that the current capitation rates will be payable during the period September 1, 2014 through February 28, 2015, i.e., the rates have been adjusted in order to produce the amended capitation amounts for the September 1, 2014 through August 31, 2015 period.

The capitation rates included in this document do not include provision for the Affordable Care Act (ACA) Health Insurance Providers Fee. HHSC will develop and implement a procedure for reimbursing the MCOs for (i) the ACA Health Insurance Providers Fee, (ii) any applicable federal income tax impact resulting from payment of the ACA Health Insurance Providers Fee and (iii) any applicable state premium tax impact resulting from payment of the ACA Health Insurance Providers Fee. Such reimbursement will be provided based on a CMS-approved methodology.

The attached Exhibit A-1 presents the amended FY2015 capitation rates payable for the period March 1, 2015 through May 31, 2015. The attached Exhibit A-2 presents the amended FY2015 capitation rates payable for the period June 1, 2015 through August 31, 2015. The sole difference between the two sets of rates is attributable to the implementation of the CFC adjustment effective June 1, 2015. These exhibits presents the total capitation rate along with all components of the premium – acute care non-inpatient, acute care inpatient, long term care, prescription drugs and NAIP add on.

Sincerely,

Evan Dial

Enclosure

## Actuarial Certification of Amended FY2015 STAR+PLUS HMO Capitation Rates

I, Evan L. Dial, am a principal with the firm of Rudd and Wisdom, Inc., Consulting Actuaries (Rudd and Wisdom). I am a Fellow of the Society of Actuaries and a member of the American Academy of Actuaries. I meet the Academy's qualification standards for rendering this opinion.

Rudd and Wisdom has been retained by the Texas Health and Human Services Commission (HHSC) to assist in the development of their state fiscal year 2015 (FY2015) managed care rate-setting methodology, assumptions and resulting capitation rates and to provide the actuarial certification required under Centers for Medicare and Medicaid Services (CMS) requirements 42 CFR 438.6(c).

I certify that the amended FY2015 STAR+PLUS HMO premium rates developed by HHSC and Rudd and Wisdom satisfy the following:

- (a) The premium rates have been developed in accordance with generally accepted actuarial principals and practices;
- (b) The premium rates are appropriate for the populations and services covered under the managed care contract; and
- (c) The premium rates are actuarially sound as defined in the regulations.

We have relied on historical experience data and program information provided to us by HHSC. We have reviewed the data for reasonableness but have not audited the data.

Please note that actual health plan contractor experience will differ from these projections. Rudd and Wisdom has developed these rates on behalf of the State to demonstrate compliance with the CMS requirements under 42 CFR 438.6(c). Any health plan contracting with the State should analyze its own projected premium needs before deciding whether to contract with the State.

Evan L. Dial, F.S.A., M.A.A.A.

## Footnotes:

(1) Equals the cost impact from 340b pharmacy reimbursement change. Reimbursement based on each PBM's proposed Shared Savings plan.

(2) Equals total pharmacy claims during the period.

(3) Equals one plus (Cost Impact divided by Incurred Claims) times 9/12. The 340B change becomes effective 12/1/2014 and, therefore, applies to 9/12 of the plan year.
