# Section VI. Actuarial Certification of FY2017 FRB and MTO Premium Rates

I, Khiem D. Ngo, am a principal with the firm Rudd and Wisdom, Inc., Consulting Actuaries (Rudd and Wisdom). I am a Fellow of the Society of Actuaries and a member of the American Academy of Actuaries. I meet the Academy's qualification standards for rendering this opinion.

Rudd and Wisdom has been retained by the Texas Health and Human Services Commission (HHSC) to develop the capitation rates applicable to the Texas Medicaid Medical Transportation Program's Full Risk Broker (FRB) and Medical Transportation Organization (MTO) contracts for the state fiscal year 2017 and to provide the actuarial certification required under Centers for Medicare and Medicaid Services (CMS) requirements 42 CFR 438.6(c) (Section 438.4 in the recently approved regulation).

I certify that the FY2017 FRB and MTO premium rates developed by HHSC and Rudd and Wisdom satisfy the following:

- (a) The premium rates have been developed in accordance with generally accepted actuarial principals and practices;
- (b) The premium rates are appropriate for the populations and services covered under the managed care contract; and
- (c) The premium rates are actuarially sound as defined in the regulations.

We have relied on historical experience data and program information provided to us by HHSC. We have reviewed the data for reasonableness but have not audited the data.

Please note that actual experience will differ from these projections. Rudd and Wisdom has developed these rates on behalf of the State to demonstrate compliance with the CMS requirements under 42 CFR 438.6(c) (Section 438.4 in the recently approved regulation). Any FRB or MTO contracting with the State should analyze its own projected premium needs before deciding whether to contract with the State.

# C. June 1, 2017 Adjustment

This amendment to the capitation rates will become effective June 1, 2017; however, the stretcher service change noted above has an effective date prior to June 1, 2017. Given that the current capitation rates will continue to be paid through May 31, 2017, the June 1, 2017 through August 31, 2017 capitation rates must be adjusted to ensure the proper premium is paid in aggregate across the entire fiscal year.

The calculation of the adjusted June 1, 2017 capitation rates has been done as follows.

#### Definitions:

- a. Current Premium premium rates that are currently in place as of September 1, 2016, and detailed in original actuarial report dated June 29, 2016.
- b. Revised Premium premium rates that would have been in place as of September 1, 2016, based on calculations performed in Section B. of this amended report.
- c. Adjusted June Premium premium rates that will be effective June 1, 2017.

Adjusted June Premium =  $\underline{12 \times \text{Revised Premium} - 9 \times \text{Current Premium}}$ 

In the above formula, 12 represents the total number of months (September-August) in the entire rating period and 3 equals the number of months (June-August) in which the adjusted June premium will be paid. Appendix A provides the details of this calculation and the final capitation rates for the period June 1, 2017 through August 31, 2017.

Alternative methods were considered for implementing this rate change, such as retroactively changing rates which would trigger a recoupment or settlement between HHSC and the MCOs to ensure the proper premium was paid over the course of the entire fiscal year. From an administrative perspective, the prospective payment methodology outlined in this section provides the least burdensome approach for HHSC and does not create a material difference in the expected premium payments.
