Wrap up

What is Random Moment Time Study (RMTS)?

A valid random sampling technique that measures the participant's time performing work activities

The “Moment” represents one minute of time that is randomly selected from all available moments within the quarter

Statewide time study sample

Regardless of the ECI the time study participant is located, once the moment has occurred, please logon to STAIRS and respond to the series of questions documenting the activity being performed and the name of the entity.

Significantly reduces staff time needed to record participant activities

Overview – Purpose of RMTS

- **To determine the percentage of time the ECI incurs assisting individuals to access medically necessary Medicaid funded services**
 - Medicaid Outreach
 - Medicaid Eligibility Determination
 - Medicaid Referral, Coordination, and Monitoring
 - Medicaid Staff Training
 - Medicaid Transportation
 - Medicaid Translation
 - Medicaid Program Planning, Development & Interagency Coordination
 - Medicaid Provider Relations
- **To reasonably identify staff time spent on activities during the given quarter.**

Agenda

Participant List- - Agenda

- Development

- Who's In

PL - Development

A trained RMTS Contact provides in STAIRS a comprehensive list of staff eligible to participate in the RMTS at the beginning of each quarter.

After the PL closes, you cannot add/delete a participant nor change position/function category.

Each time the PL is updated, it is also certified.

The RMTS Contact must open the PL and click the “certify the PL” button prior to the deadline, even if there are no changes to the participant list from the previous quarter.

PL - Development

An accurate PL is a critical part for ensuring eligibility for MAC

- If the PL is not updated/certified by the deadline, the ECI is ineligible to submit a MAC claim for that quarter

Reminder e-mails will be sent only to those ECIs that have not certified their PL.

- If your ECI receives an email, please check to make sure your PL has been certified.

The PL provides a basis to identify the positions that may be included in the MAC claim

- The positions that perform MAC activities should only be listed on the PL.

PL Development — Vacant Positions

Vacant Positions

Inconsistent implementations from year to year and entity to entity

- Only the vacant position(s) the ECI anticipates filling during the quarter should be included on the PL
- Should be reviewed and edited each quarter before the PL closes
- Loading the PL with vacant positions limits the opportunity for the selected moment to be a reimbursable response
- RMTS Contact responds to the moment as paid/unpaid leave
- Excess ultimately lowers the RMTS percentage across the State

PL Development — Duplicate Positions

Duplicate Positions

- Identify and Remove from PL
- If more than one job function is performed by the participant, include it only once on the PL in the category/function performed majority of the time.
- Email(s) will be sent to those entities identified as having possible duplicate entries.
- HHSC trained RMTS Contact will be responsible for removing duplicate entries prior to the PL close date.

To remove duplicates from the PL do the following:

Export your PL to Excel. Choose the column of data (e.g. address, external ID) that may have duplicates. Highlight that column and choose the “conditional formatting” option. You’ll see an option there to “highlight duplicate values”

It’s easy to identify and remove any duplicates.

Participant List - Who's In???

- Staff who perform MAC activities:
 - Regular duties on a weekly basis
 - Regular Staff
 - Federally funded employees
- Contractors (including all positions) who are not employees of the entity but provide services for entity.
 - For one position being filled by multiple contractors, it should be listed as one position on PL
 - For multiple positions filled by one or more contractors, then each position should be listed on PL.
- Vacant positions that are anticipated to be filled (with reasonably certainty) during the quarter.

RMTS Training & Completion Instructions

You have been selected to participate in the Random Moment Time Study on behalf of your organization. You are required to complete the following Time Study questionnaire, which will ask you several questions that you will answer for your sampled date and time. The specific information that you provide on the Time Study is not shared with your organization, however it is reviewed by Fairbanks personnel and coded for Medicaid reimbursement purposes. As a result, it is important that you complete the Time Study accurately.

The following provides guidance on the accurate completion of the Time Study:

1. Please keep in mind that you are responding for one precise minute in time.
2. Choices are provided for your convenience. If you do not see a response that applies, click "other" and provide details.
3. If you use acronyms in the description of your activity, please provide a definition of the acronym.
4. If you were with a child, Do not provide client-specific names, instead your response can state that you were working with a child or group of children.
5. Some responses do not provide enough description. Examples of unacceptable responses:
 - "I was doing my job."
 - "I was completing my job responsibilities."
 - "I was completing this time study form."
6. If insufficient information is provided, you will receive a follow-up email or phone call requesting more information.
7. If you are travelling at the selected moment, please associate the time spent travelling with the activity you will be performing when you are done travelling. For example, travelling to a direct service appointment, the travel time is reported as direct service.
8. The term **caregiver** includes all individuals who are responsible for the child's safety and well being throughout the day. Examples: Parent, foster parent, extended family, daycare provider.
9. Time spent **travelling** to or from the activity is considered a part of that activity. For example, travel to a child's home to provide case management is considered as time spent providing case management.
